

# Pablo Maffioli

## Software Engineer

A software engineer, always eager to learn more and ready to build applications at forward-thinking companies. Being a curious and proactive person who truly loves programming, I am seeking long-term career opportunities as a software engineer.

## Projects

### Hoppers – Jul 2022

Enterprise SaaS for reservation management of a trampoline park. Built by a team of 4, this project features POS, add-on products, scheduling and waiver management. Built with React and Redux; Stripe integration; and Firebase's Firestore, Cloud Functions, Auth, and Hosting.

### JukeCracy – Jul 2022

Consumer facing Web App for music lovers to allow them to share their passion in a collaborative real-time simple interface. Built in React with Redux, Firebase and Spotify API.

## Experience

### Self Mod X – *Intern* – Aug 2022 - Present

*Career advancement community for software developers.*

- Assigned as a Teach Lead to help 10 programmers complete their web application solo and group projects with Agile methodologies.
- Suggested and created automation tools with NextJS and Github API as part of a team, saving the company \$5000.

### Ciclomotos – Trenque Lauquen, Argentina

*Family owned retail and B2B motorcycle parts company.*

### Project Manager – Nov 2018 - Aug 2019

### B2B Sales Representative – Oct 2010 - Aug 2016

### Warehouse Associate – Dec 2007 - Oct 2010

- Managed the creation of the company's online marketplace, increasing overall revenue by 10%.
- Digitized core administrative processes, reducing overall company workload by 30%.
- Planned & implemented expansion into new geographical areas, increasing B2B sales 150%.

## Certifications & Education

### Self Mod X – Jun 2022 - Jul 2022

- Selected amongst the top 4% of applicants to participate in the summer program.
- Developed applications in React both individually and on a team, under the guidance of a Silicon Valley senior engineer.

### Full Stack Open – Nov 2021 - Jun 2022

- Studied modern JavaScript-based web development with MERN and PERN stacks completing 11 certifications.
